**Nature of Complaint:**

Customer is very opposed to the rate increase being requested by APS.

Customer is on the 9 to 9 plan with APS and her bills have gone from \$121, \$124, \$151 and \$157. She was gone from her residence for 10 days in May and her electric bill was higher. The temperatures in May were not high and she had her AC was set at 86 degrees and the only other thing connected to electricity was the refrigerator. Her appliances are all energy efficient.

She asked to get the meter checked and she was quoted a price to have this done. So she declined the meter check.

She states that she is a very unhappy camper when it comes to APS.
